<sup>~</sup> water delivered to the Snowy River by the New South Wales Department of Industry between 1 May 2020 and 30 April 2021

<sup>^^</sup> Delivery in these systems included use of return flows

<sup>\*</sup> Includes passing flows delivered in the Glenelg River (3,122.0 ML) and Wimmera River (369.1 ML).

<sup>^</sup> The VEWH's environmental entitlements in the lower Latrobe and lower Barwon wetlands allow diversion of water from the Latrobe and Barwon rivers into the wetlands at any time when specific river height triggers are met. The entitlements do not consist of a set volume and the volume of water diverted into the wetlands is not measured.
